First published in 1945, Journal of Clinical Pathology is a core publication for workers in all disciplines of clinical pathology. Published monthly, it features high quality original papers, and short reports.

Research areas covered are: histopathology; haematology; microbiology, cytopathology; clinical pathology, molecular pathology, forensic pathology; dermatopathology; neuropathology; and immunopathology.

The image representing chemical pathology (see page 515) is published with the kind permission of the Swiss Institute of Bioinformatics (copyright Swiss Institute of Bioinformatics, Geneva, Switzerland). Courtesy of Amersham Biosciences Ltd).
