

Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

Contents Vol. 26, No. 2, February 1973

Azotaemic renal osteodystrophy: a quantitative study on iliac bone

H. A. ELLIS AND KATHLEEN M. PEART *page 83*

Identification of intrarenal fibrin deposition

A. M. DAVISON, D. THOMSON, MARY K. MACDONALD, J. K. RAE, W. S. UTTLEY, AND A. R. CLARKSON *page 102*

Electron microscope study of a case of Australia antigen-positive chronic hepatitis

JUNE D. ALMEIDA, P. GIOANNINI, G. SCALISE, AND C. V. HARRISON *page 113*

Intravascular coagulation and *E. coli* septicaemia

F. E. PRESTON, R. G. MALIA, M. J. SWORN, AND E. K. BLACKBURN *page 120*

Variable sex chromatin pattern in an early carcinoma of the bladder

N. B. ATKIN AND I. PETKOVIĆ *page 126*

The effect of pancreatectomy and other agents on iron absorption and storage in the rat

R. SINNIH, T. K. BELL, AND D. W. NEILL *page 130*

Neonatal meningitis caused by *Citrobacter koseri*

R. J. GROSS, B. ROWE, AND J. A. EASTON *page 138*

Controlling infection in a district general hospital

PAUL NOONE AND M. S. SHAFI *page 140*

Bacteriological hazards of disposable bedpan systems

G. L. GIBSON *page 146*

Gentamicin as a selective agent for the isolation of beta haemolytic streptococci

WILLIAM A. BLACK AND FRANCES VAN BUSKIRK *page 154*

Technical methods

A replica technique for paraffin sections for transmission electron microscopy

LILIAN LIM *page 157*

Simplified procedure for the detection of antigens by crossed immunoelectrophoresis

J. W. KEYSER AND K. LEWIS *page 160*

Letters to the Editor *page 161*

Book review *page 162*

ASTM CODEN: JCPAAK 26 (2) 83-162 (1973)
