PAP stained cytospin of a hydatid cyst aspirate showing a single scolex of *Echinococcus* spp. Original magnification, $\times 63$. Courtesy of Drs LB Jordan and H Monaghan, Department of Pathology, Edinburgh University, Edinburgh, UK

Editorial

- 161** Risk management in pathology
E L Teare, R G Masterton

Reviews

- 164** Endocervical glandular lesions: controversial aspects and ancillary techniques *W G McCluggage*
- 174** HPV infections in benign and malignant sinonasal lesions
K J Syrjänen
- 182** *Bacillus anthracis* *R C Spencer*
- 188** Burkitt's lymphoma: new insights into molecular pathogenesis *C Bellan, S Lazzi, G De Falco, A Nyongo, A Giordano, L Leoncini*

Diagnostic brief

- 193** Immunohistochemical classification of B cell neoplasms *J J Oudejans, P van der Valk*

Original article

- 194** Increased Nox2 expression in human cardiomyocytes after acute myocardial infarction *P A J Krijnen, C Meischl, C E Hack, C J L M Meijer, C A Visser, D Roos, H W M Niessen*
- 200** Expression of Ki-67 and cytokeratin 20 in hyperplastic polyps of the colorectum *A Davenport, R J Hale, C R Hunt, G Bigley, R F T McMahon*
- 205** Histological changes in the oesophageal squamous mucosa: correlation with ambulatory 24 hour pH monitoring *D J Bowrey, G T Williams, G W B Clark*
- 209** Hypoxia inducible factor 1 α and 2 α overexpression in inflammatory bowel disease *A Giatromanolaki, E Sivridis, E Maltezos, D Papazoglou, C Simopoulos, K C Gatter, A L Harris, M I Koukourakis*
- 214** p21^{WAF1} expression in invasive breast cancer and its association with p53, AP-2, cell proliferation, and prognosis *M J Pellikainen, T T Pekola, K M Ropponen, V V Kataja, J K Kellokoski, M J Eskelinen, V M Kosma*

- 221** Inhibin is more specific than calretinin as an immunohistochemical marker for differentiating sarcomatoid granulosa cell tumour of the ovary from other spindle cell neoplasms
V I Shah, O N Freitas, P Maxwell, W G McCluggage

Technical report

- 225** Measurement of IgG antibodies to *Chlamydia trachomatis* by commercial enzyme immunoassays and immunofluorescence in sera from pregnant women and patients with infertility, pelvic inflammatory disease, ectopic pregnancy, and laboratory diagnosed *Chlamydia psittaci/Chlamydia pneumoniae* infection *C S Jones, P A C Maple, N J Andrews, I D Paul, E O Caul*

Short report

- 230** Minimal focus of adenocarcinoma on prostate biopsy: clinicopathological correlations *X Leroy, S Aubert, A Villers, C Ballereau, D Augusto, B Gosselin*

Case report

- 233** Soft tissue, pelvic, and urinary bladder leiomyosarcoma as second neoplasm following hereditary retinoblastoma
L Venkatraman, J R Goepel, K Steele, S P Dobbs, R W Lyness, W G McCluggage
